

Beautiful Photographs of Famous Boats That Have Made Yachting History

For many years the late Mr. C. E. Bolles was recognized as the foremost marine photographer. His collection of negatives comprises the most complete photographic record of the famous craft which have made American yachting history, and these pictures possess an artistic merit equal to their historic value. Reproductions of these photographs are rare, as Mr. Bolles held them at high price, ranging from five to ten dollars per print.

YACHTING has purchased his entire collection of yacht negatives. We offer these prints at a price which brings them within the reach of every yachting enthusiast, who desires to decorate the Club Room, Den or Cottage.

This is an unparalleled opportunity to secure a collection of the finest Yachting photographs extant, and one which every club and yachtsman will appreciate.
