

and D. S. Fox of the Fox and Adams Co., who will conduct the business in the future.

CAMDEN.

CAMDEN, Aug. 22—Yacht Zara, belonging to C. F. Hofer, one of the summer colonists at Beauchamp Point, met with an accident today that for a time imperilled the lives of the party on board. With a party from the cottage the boat was proceeding to the races at Dirigo Island, when a squall of unusual violence struck her and carried away the mast and with it all the rigging. A strong southwest wind prevailed in the bay, and the water was unpleasantly rough for a craft with no motive power, and for several hours the boat drifted at the mercy of wind and wave. Her plight was at last observed by some of the cottagers at Beauchamp Point, and the Camden Yacht Clubhouse was notified of the accident. Capt. Frank Wilson started at once in the power boat, Jernertha to the aid of the disabled craft, and towed her to her moorings at Camden.

The Zara is a 31-foot knockabout and is sailed by Capt. Walter Arey. The broken mast and the rigging were saved, and brought in alongside the boat when she was towed home.

Other Camden boats attending the races at the island were Sally VII, George B. Phelps, Tyro, Miss Helen Curtis, Satana, W. J. Laata and the Opitsah, John Bribbel.

Some sort of a compromise has been affected between the management of the Camden Woolen mill and the striking spinners and weavers. The strike
